ALVIN W. PALMER,

Treasurer.

THE SMYTH PUBLIC LIBRARY.

The circulation of the Smyth Public library for the last year has been 4978 books. There have been added by gift 15 volumes, by purchase 174 volumes, total 189 volumes. Books were given to the library by Mr. J. Lane Fitts, Miss Conover, Rev. E. J. Aiken, Mr. B. P. Palmer, Rev. A. R. Graves and the state of New Hampshire.

The trustees of the library feel that a great loss has been sustained in the death of Mr. J. Lane Fitts who was always greatly interested in the welfare of the library, he being the first and only president of the trustees up to the time of his death, a period of twenty-three and one-half years.

The vacancies caused by his death have been filled by the appointment of Mr. Ransom R. Champlain as trustee and the election of Mr. John H. Foster as president.

The present board of trustees and officers are as follows: President, John H. Foster; Vice-president, A. Frank Patten; Clerk, Treasurer and Librarian, Frank E. Page; Auditor, Benjamin F. Lang.

GEORGE F. CASS,
JESSE W. SARGEANT,

SCHOOL REPORT.

During the past year there have been 138 pupils in our schools, according to the enumeration of our truant officer Roger C. Brown, 70 girls and 68 boys.

The truant officer's bill has amounted to \$20 on account of the parents neglect to have their children attend school all the time; the literary fund has been reduced about one half for the same reason. However there are three pupils for three years, three for two terms, and twenty-seven for one term, who have been neither absent or tardy.

All the schools have kept thirty weeks, therefore the town receives a certain amount of money from the state.

Our teachers have worked diligently and, with one or two exceptions brought good results.

An effort has been made to maintain the grading established last year and carry on the work in such a way as to result in regular promotions from year to year. With one or two exceptions, the teachers have labored with this end in view.

Early in the year a change was made in the method of instruction in English with the hope that our work in that branch might be brought up to the standard required for entrance to high schools and academies. Too often, in the past, our pupils, seeking to enter higher institutions, have been obliged to supplement the instruction received in the town schools.

Some one has said that if a child does not learn to read during the first four years of his school life, he never will. However true this may or may not be, it is certain that reading forms a large part of the work of these first years. Hence the importance of an abundance of good literature suited to the capacity of the child can readily be seen.

Owing to the lack of funds, no addition has been made to the reading matter for the schools this past year. It is to be hoped the need will be considered so urgent as to give us means to supply a suitable amount of historical and other *good* literature for these the most impressionable years of the child.

MARY L. BROWN,
JOHN T. UNDERHILL,
